

UTS-0660-N Automatic Soil Compactor

- Completely Powder Coated
- Incorporated Safety Cabinet / Sound Enclosure
 - Very nice safety feature to avoid serious injury
 - Others have the hammer and mold area open and exposed
 - Works very well for sound dampening
 - Includes high strength Lexan windows on each side for easy visibility
 - Others sell a very basic small cage or small doors separately for an additional price
 - Ours is a fully enclosed cabinet type
 - Much quieter during operation
- ½ HP Motor
 - Not 1/3 HP like some others. Ours is very quiet.
 - Fully Enclosed in a Steel Housing with venting for air flow
 - Other machines' motors are uncovered and exposed which get very dirty and cause major damage over time.
- Easy to Read Digital Indicator
 - Easily Switch Between Standards
 - Easily Select Drop Height, Size and Number of Blows
- 2 Year Warranty
- Fully ASTM and AASHTO Compliant
- Multiple Safety Switches
- Fuse System to protect from over-voltage
- Both Hammer Sizes Included
 - Circular 5.5 lb and Pie Shaped 10 lb (by adding surcharge weight)
- Easily change hammer type in seconds
- Easily change drop height in seconds
- Easily change hammer weight in seconds
 - Surcharge Weight from 5.5 lbf to 10 lbf included
- Base Plate includes a pin for perfect centering
- Mold mounts to holes on base plate for 4" and 6" molds to mount firmly and securely
- Superior Design
- Superior Build Quality with Higher Quality Parts
